International Conference on Neutron Scattering

**INVITATION TO  
SPONSORSHIP & EXHIBITION**  
7 - 9 July 2025  
Copenhagen, Denmark

Welcome to Copenhagen!

## Invitation to Sponsorship and Exhibition

The International Conference on Neutron Scattering (ICNS-2025) invites you to Denmark, to share your experience in neutron science and instrumentation.

ICNS2025 is the 8th edition of the main International conference on neutron scattering science and instrumentation. Neutron scattering is a scientific technique aimed to investigate hard, soft, and biological materials, and it is most often carried out at a few handfuls of large, dedicated facilities. Academics and facility personnel from all over the world will attend the conference and share their latest findings – and to visit the newest International neutron facility, the European Spallation Source in Lund, Sweden, which is due to deliver first neutrons exactly in the summer of 2025.

The conference gives not only the possibility to be updated with the latest advances within neutron science, sources and instrumentation; it is also the largest International networking events for experts within the field. The conference features sessions and networking meetings from all the major International facilities, including the facility directorates, and most leading research groups.

### Why Should You Support the ICNS2025 conference in Copenhagen?

#### **BRANDING:**

It provides your business with unique marketing possibilities through the ICNS2025 website, emails, newsletters, invitations, brochures, banners and merchandise before and during the conference.

#### **NETWORKING:**

It provides your business with ideal conditions for networking by creating informal spaces – in between sessions and at receptions, breaks and cultural events where you can meet e.g. with potential clients or decision makers in neutron science within ICNS2025 delegates.

#### **DISPLAYING YOUR PRODUCTS OR SERVICES:**

An exhibition stand at the conference increases the visibility of your business and offers an easy way to make possible clients come to you. All exhibition stands will be placed near the eating and drinking locations, common facilities and joint events to ensure the highest possible visibility and accessibility.
